

Quality V-belts for Combine Harvesters

Solve the problems of your belt drives

Right Choice for Combines...

It is very complicated to manufacture different quality belts complying with characteristic of complex power transmission requirements of combine harvesters. All over the world, there are several v-belt manufacturing companies but only few of them are able to fulfill quality requirements of agricultural belts due to insufficient experience about application and knowledge about drive systems of combines.

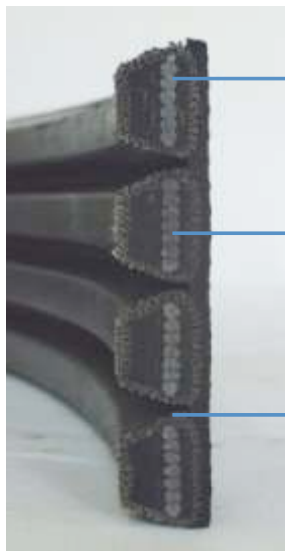

T.agri belts offer you ;

- The right alternative after-market product comparing to OEM belts.
- Reliable (=high) quality belts fully %100 'made in E.U.'
- Correct sizes
- High performance for all applications
- Wide ex-stock range and for non-stock items short delivery time
- Profitable product for part sellers (Extremely high Quality/Price ratio)

T.agri belts proved its quality even for the latest model of high speed combines and in the most difficult harvesting lands and crops.

Perfectly Designed and Constructed Belts for Combines...

→ T.agri belts construct with highest quality, tested and certified raw materials

→ All rubber compounds formulate and prepare at the same plant where belts are producing

→ Starting from mould design every process are under are under fully controlled by manufacturer
